**Laws and Sausage – “It’s better not to see them being made!”** That’s a famous old quote, but for ORRA members, skipping the politics is not an option. If you attended this session last year, you’ll remember that our very own Craig Campbell (then, the ORRA Governmental Affairs Director), delivered a fast-paced, slightly cheeky, behind-the-scenes look at how laws are really made. Attend this year for more tips and a preview of upcoming issues. **Speaker: Craig Campbell, ORRA Executive Director and CEO.** **Hood**

Moderator: Laura Leebrick, Rogue Waste/WCI

**Customer Service and Your Franchise –** This is not an overstatement! How customer service is handled by your company could be affecting the continued viability of your franchise. Is your company solving customer service complaints to the satisfaction of your regulators? Do you have an internal process to evaluate concerns and elevate issues that arise? A panel of ORRA members will talk about customer service requirements and differences between franchises, as well as what works, and what does not, when it comes to customer service. **Speakers: Kari McCullough, Walker Garbage Service; Jessi Makin, Heiberg Garbage & Recycling and Walter Budzik, Thompson’s Sanitary Service.** **Cascade Locks A**

Moderator: Kristan Mitchell, ORRA Of Counsel

Monitor: Kennedy Jantzi, Re:Source

| 10:45-Noon | <b>General Session: The Recycling Modernization Act – How is that dial and switch thing going?</b> It’s been a year since the RMA went into effect, and what a year it’s been! This session will review what’s been accomplished this year, as well as look to upcoming issues on the near horizon. The dial is “on” so join us to hear from a panel including <b>Laura Leebrick, Rogue Waste/WCI; Vinod Singh, Far West Recycling; Alex Bertolucci, CAA and Justin Gast, DEQ</b> and ORRA about what is happening around the state, and what is expected! |  |

**Navigating Change: The Latest in Waste & Recycling Policy, Regulation, and Litigation** – Across the country, states are moving forward with new programs and requirements, courts are weighing in on key industry issues, and regulators continue to shape how existing laws and regulations will be implemented. Join **Anne Germain, Chief of Technical & Regulatory Affairs, National Waste & Recycling Association (NWRA)** for an engaging look at topics covering the legislative, regulatory, and legal developments affecting the waste and recycling industry, including but not limited to the latest developments in packaging EPR implementation and litigation, battery stewardship programs, transportation and collection issues, and emerging federal and state policy initiatives affecting waste and recycling operations. **Hood**

Moderator: Lexi Howell, North Lincoln Sanitary Service  
Monitor: Jeremy Howell, North Lincoln Sanitary Service

**Driver Files, Safety and Compliance Requirements** – Where do we begin? Being organized, consistent, and having a written procedure for every policy are just a few of the key factors involved in keeping your company in compliance if – or more likely, when – you get that audit call from the Oregon Department of Transportation. No one wants to hear the word “audit,” but if you do, this session will have you prepared! Our speakers will share the keys to success in maintaining important driver qualification files and best practices that will help keep your drivers, your companies, and your communities safer. **Speakers: Julia Smiley, Pride Disposal Company and Todd Raska, Motor Carrier Safety Consultant.** **Cascade Locks A**

Moderator: Dori John, Roseburg Disposal Company
